

SANIFOODWASTE helps
to solve the problems of many
food waste on board, reducing
weight and volume.

The functional tests have started
and the results are in line with the
expectation!

Soon we will be able to verify the
performances of the volumes
treated and have the verification
with the scientific analyzes of the
treaty.

A big step forward with this new
technology, a truly unique machine
for performances, small dimensions
and limited energy costs.

**STOP BURN, BUT
REGENERATE!**

High technological content's systems

SANITRADE®

High technological content's systems

SANITRADE with his products also complies with European Regulations on waste disposal at sea.

The problem of the collection and disposal of **FOOD waste on board** is very important.

For this reason the International Maritime Organization in the MARPOL Convention makes provisions on the matter in the **ANNEX V** (*Regulations for garbage disposal at sea*).

“Conserve and sustainably use the oceans, seas and marine resources for sustainable development”
